## Lighting for Dairy Farms

Ever thought about upgrading to LED lighting?

Tired of not having enough light available?

Reduce maintenance costs and increase efficiency with LED lighting from Nairn Electrical.

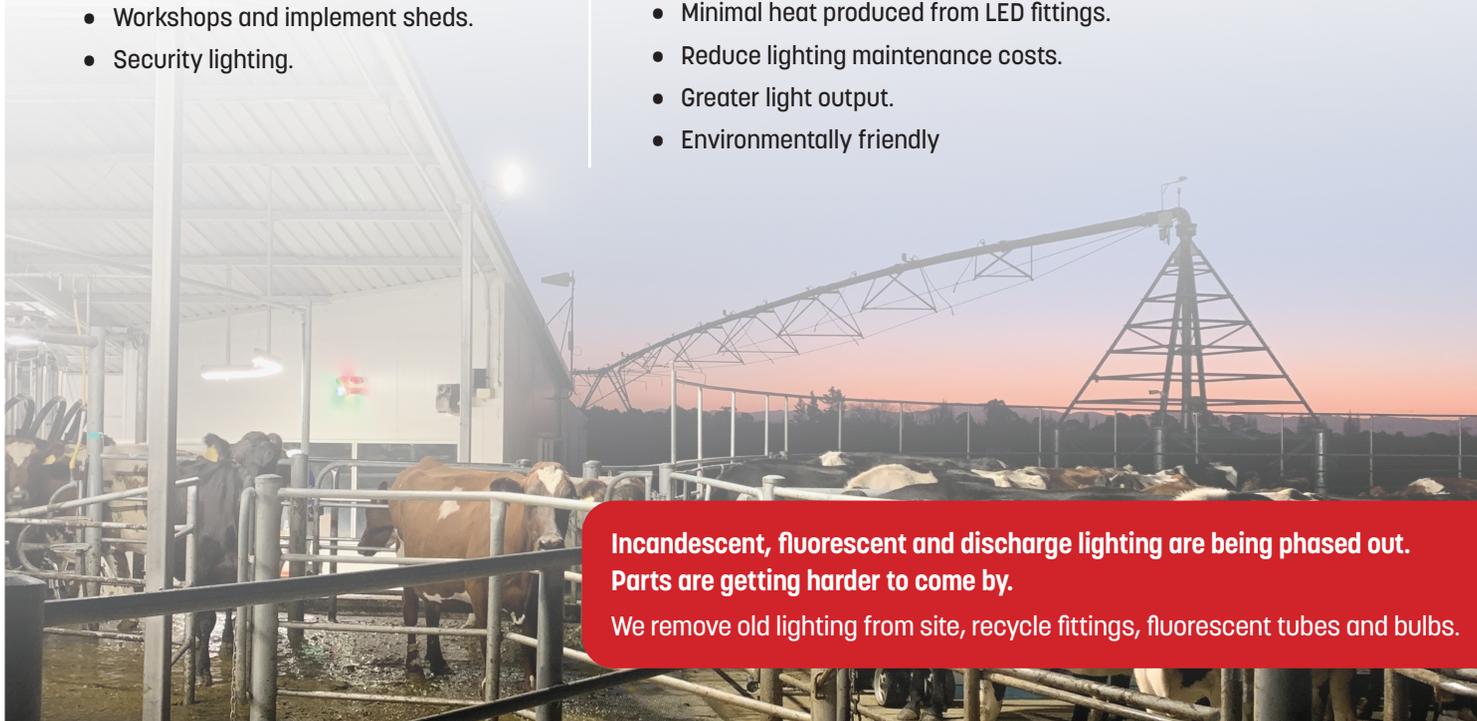

### Suitable for multiple applications:

- Dairy shed lighting.
- Centre high bay fittings.
- Yard lighting.
- In-shed lighting.
- Workshops and implement sheds.
- Security lighting.

### Why use LED lighting:

- Instant LED light, no need to wait for lamps to warm up.
- Energy saving, about half the power consumption than fluorescent lights.
- Longer life span than fluorescent fittings.
- Minimal heat produced from LED fittings.
- Reduce lighting maintenance costs.
- Greater light output.
- Environmentally friendly

Incandescent, fluorescent and discharge lighting are being phased out. Parts are getting harder to come by.

We remove old lighting from site, recycle fittings, fluorescent tubes and bulbs.

### We can also offer:

- Thermal image inspection and reporting.
- Stray voltage inspection and reporting.
- Irrigation and dairy shed inspection and reporting.
- Appliance test and tagging.
