Motor Supply & Service

Don't scrap your old motor, it may be repairable.

Bearings worn-out or noisy?

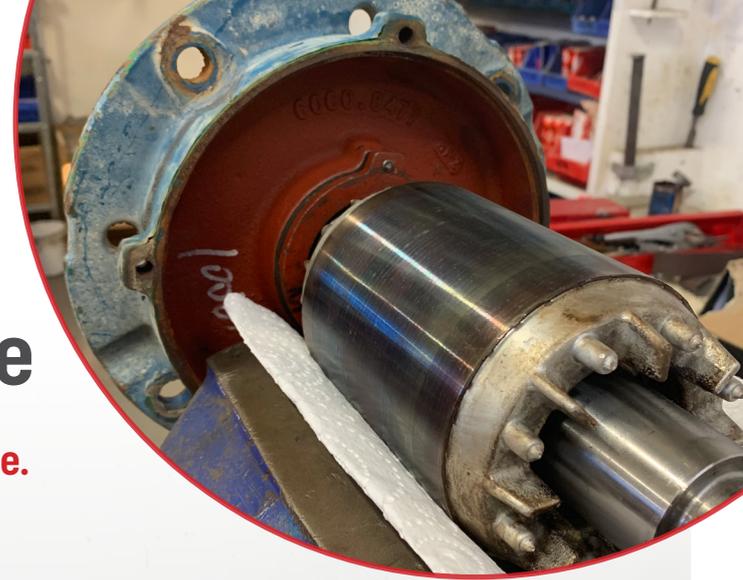

We can replace worn-out bearings before they fail and cause damage.

Overgreased bearings?

We can clean and rebuild your motor with sealed bearings.

Submerged or wet motor?

If the motor hasn't been run, we may be able to rebuild it.

What we do:

- Test to see if the motor is repairable.
- Strip and clean.
- Wash and bake in drying oven.
- Bearing replacement.
- Reassemble motor.
- Run on test bench.

Full motor test sheet available on completion.

If it's not viable to repair the motor, we can supply a replacement.

We can also offer:

- End shield replacements.
- Fan replacement.
- Fan cover replacements.
- Rain hat installs or replacement.
- New motors from leading brands.
